CAREER OBJECTIVE

An ambitious and enthusiastic Individual with good interpersonal communication skills, a confident approach, and a progressive attitude. Seeking an opportunity to utilize these skills more effectively and working towards achieving organization goals.

WORK EXPERIENCE

Software Analyst

Capgemini

📅 July 2024 – Ongoing 📍 Bangalore, India

- Description: Currently undergoing comprehensive training in Java Full Stack development, focusing on both front-end and back-end technologies to build robust and scalable web applications. The training program includes hands-on experience with modern development practices and tools.
- Technologies: Java, Spring Boot, RESTful APIs, Hibernate/JPA.
- Designed and developed server-side components and RESTful web services to handle business logic and data processing.
- Utilized Spring Boot for creating and managing microservices, and Hibernate/JPA for database interactions and ORM. Created and optimized SQL queries, designed database schemas, and ensured data integrity and performance.

PROJECTS

E-commerce Food Delivery Platform (Swiggy-like Website)

- Description: Developed a scalable and robust food delivery platform like to Swiggy using Core Java, Spring Framework, JDBC, MVC architecture, and Hibernate ORM. This project involved the end-to-end development of a web application, including designing the architecture, implementing core functionalities, and integrating with a relational database.
- **Implemented Core Features:** Developed user registration, login, and authentication functionalities using Spring Security. Implemented CRUD operations for managing restaurants, menus, orders, and customer profiles. Enabled real-time order tracking and notifications to enhance user experience.

Amazon Clone

- Developed a responsive Amazon-like e-commerce website clone using HTML and CSS. The project replicates the core structure and design elements of the Amazon homepage, including a header with navigation links, a search bar, and product grid layouts.
- Created a responsive layout using CSS Flexbox and Grid for consistent user experience across devices. Designed a mock product display section using CSS styling for product images, titles, and pricing.
- Github link: <https://github.com/Ritesh4554/AmazonClone>

INTERSHIPS

- ELECTRIC LOCO SHED GHAZIABAD

POSITION OF RESPONSIBILITY

SPORTS FEST

Captain of Cricket team for Inter-Departmental Sport's event.

EDUCATION

B.E in Electrical and Electronics

70.%

📅 2019 – 2023 📍 ABES Engineering College

HSC (12th)

71%

📅 2018 📍 RY.GIC

SSLC (10th)
